

# Hybrid Cloud Security with Zero Trust Implementation

Powered by Microsoft and SNP's Enterprise Security Framework (ESF)

## New security principles are needed for the new world

**67%** Increase in average attacks per company from 206 in 2020 to 270 in 2021<sup>1</sup>

**49%** IT Executives said keeping up with security requirements has gotten harder<sup>2</sup>

**60%** U.S workforce would be entirely remote or mobile by 2024<sup>3</sup>

## Secure your digital transformation with SNP Technologies and the Zero Trust Model

With adaptive controls and continuous verification, the Zero Trust Model fundamentally changes how access is granted and how breaches are prevented across the digital estate.

Rely on SNP Technology's Enterprise Security Framework and Microsoft's security solutions to build, deploy, and manage a Zero Trust foundation and establish integrated security.

### Our delivery process

- 1 Understand**
  - Envision**  
 Conduct a one-day workshop to provide an overview of our Enterprise Security Framework and the Zero Trust approach.
  - Understand governance and security requirements**  
 Conduct further discovery to understand your cloud governance and current secure state.
  - Rationalize**  
 Gather information on your current security tooling and analyze the gaps with respect to your hybrid cloud security requirements.
- 2 Remediate**
  - Deploy**  
 Implement remediations with Microsoft tools & solutions, including Microsoft Sentinel, Microsoft Defender product family, Microsoft Purview, and Azure Arc.
- 3 Manage**
  - On-going support**  
 As a managed security service provider, SNP provides on-going posture visibility and management, along with end-to-end detection, analysis, and response to security issues leveraging MDR (Manage, Detect and Response)

#### Deliverables

1. Zero Trust Model Gap Analysis Report
2. Zero Trust Remediation Report
3. Zero Trust Model Implementation with Microsoft Tools

## SNP Technologies Inc. can help you drive business excellence with Microsoft Azure

### Advanced Specializations

Analytics on Microsoft Azure | Networking Services | Azure Virtual Desktops | Kubernetes on Microsoft Azure | Modernization of Web Applications to Microsoft Azure | Windows and SQL Server Migrations to Microsoft Azure | Cloud Security

### 2021 MSUS Partner Of The Year Winner

Business Excellence In Solution Assessments

### 2019 Partner Of The Year Winner

Intelligent Cloud & OSS On Azure

### 2019 Partner Of The Year Finalist

Open Source Applications & Infrastructure On Azure

### 2019 Partner Of The Year Winner

Solution Innovation On Microsoft Azure Award
